COMMENTS FROM THE TOWN MANAGER'S OFFICE

There will have to be a special town meeting later this year. There are three or four items but the subject that I am most concerned with is a four-wheel drive truck. The town highway equipment is supposed to be replaced by funds in the truck rental account. The truck will be paid for with funds from the truck or equipment rental account but it is money that will be earned during the next three or four years. The municipal officers will be asking for authority to borrow money to purchase a truck and the money will be repaid by annual payments from the truck rental account.

I would like to state an approximation of the amount of notes needed but I am not able to. There are a couple of variables that will determine the exact amount. The amount received for a truck traded or sold will be a determining factor in the amount of notes needed. The price of the truck and plow, if a plow is needed, are the other variables. These figures will all be available before authorization to borrow the notes is requested.

The two men who are working in the highway crew this week started spraying bushes Monday. The spraying lasted until early afternoon when the truck broke down. Repairs to the truck will be delayed until next week. They will spend the rest of the week working on roads.

A survey was made the first of the week and twenty locations were found with three or more discarded automobiles or parts of automobiles. Each of the twenty places will be required to get a junk yard license or the lot must be cleared of the junk cars. I am certain that it will be much cheaper and easier to clean up the places where there are more than five cars. The next step in the process is to get the places cleaned up where there are one or two junk cars. Actually, quite a few people have gotten rid of their junk vehicles without pressure from the authorities.

EMERGENCY UNIT EXPLAINED AT FRIDAY SESSION

The first in a series of instructional sessions was held at the Bethel fire station last Friday evening to acquaint Civil Defense and Public Safety personnel with the town's emergency reconstitution unit.

Fire Chief R. S. McMillin demonstrated the use of the equipment which is frequently forgotten in emergencies because few people know of its existence or have been trained to operate it.

Nurse coordinator, Mrs. Dale Thurston, R. N., said the remainder of her roster of nurses, will be called to have similar sessions in groups of seven or eight at a time.

Attending the Friday session were nurses Mrs. Mabel Anderson, Mrs. Marion Covert, Mrs. Annabel Lee, Mrs. Nellie Frankiewicz, J. P. M. Mrs. Betty Hastings, Mrs. Alice Stevens. Also attending were Civil Defense Director John Greenleaf, Medical Administrative Officer, Eldon Greenleaf, and Assistant C. D. Director, Donald S. Brown. Persons needing the reconstitution are asked to call the Red Network, 824-2211, as for a fire signal.

MAINE GETS FEDERAL GRANT FOR STATEWIDE OUTDOOR RECREATION PLAN

The Bureau of Outdoor Recreation's Northeast Regional Office has announced a \$6975 grant to the State of Maine from the Federal Land and Water Conservation Fund. The grant is for the development of a statewide outdoor recreation plan. The plan will be developed by the Maine State Park and Recreation Commission, headed by Lawrence Stuart, Director of the Maine State Park and Recreation Commission, to provide for the development of the Commission's Division of Outdoor Recreation to maintain State of Maine's outdoor recreation system.

Handley also declared that the 1967 grant is for the first stage of the plan and that the two subsequent stages are also eligible to receive federal assistance from the Land and Water Conservation Fund. The total amount of Federal aid for the project is \$69,750. The grant is expected to be received by the end of the year.

The Land and Water Conservation Fund is a federal program to assist in the planning, acquisition, and development of outdoor recreation areas and facilities by State and local governments. It is supported by revenues from the sale of the Federal Recreation Entrance Permit, other outdoor recreation entrance fees, and from the sale of Federal surplus property and the Federal motor vehicle tax.

After two weeks of construction and on sight work, the new two-story building for the Bethel Fire Station is now under construction. The building will be a two-story structure with a total area of 10,000 square feet. It will house the fire station and the town's emergency reconstitution unit. The building is expected to be completed by the end of the year.

DUTCH FILM DISASTERS CONTINUE

ITS DEVASTATION

If the reader would take a moment to check the streets of Bethel Village, he will observe a great number of dead and dying film strips. For these strips are already infected with the deadly disease known as Dutch Film Disasters.

This disease is a kind of cancer of the film strip. It is caused by a virus which attacks the film strip and causes it to decay. The decay is usually noticed as a white or yellowish spot on the film strip. If the spot is not noticed and the film strip is not replaced, the spot will grow larger and larger until the entire film strip is destroyed.

The best way to prevent Dutch Film Disasters is to replace the film strip as soon as a spot is noticed. If the spot is not noticed and the film strip is not replaced, the spot will grow larger and larger until the entire film strip is destroyed.

MOTORISTS SHOULD LOCK DOORS AND FASTEN SEAT BELTS SAY SAFETY COM.

According to Robert C. Kimball, an automobile dealer and a member of the Maine Highway Safety Committee, most motorists are overlooking two safety steps that might save their lives. In citing a report from the Auto Industries Safety Newsletter, Kimball said that most people fail to lock all the doors of their vehicle while it is being operated. They also fail to fasten their seat belts. Years ago, said Kimball, we used to think that we were safe when we drove from a car. We would get out of the car and go to the store. We would get out of the car and go to the store. We would get out of the car and go to the store.

Kimball said that a recent survey of Michigan state disclosed that 40 per cent of the fatalities investigated by the project were caused by the fact that motorists had not fastened their seat belts. He said that the survey also disclosed that 40 per cent of the fatalities were caused by the fact that motorists had not locked their doors. He said that the survey also disclosed that 40 per cent of the fatalities were caused by the fact that motorists had not locked their doors.

FESTICIDES THAT KILL BUGS ALSO DANGEROUS TO PEOPLE

Festicides will kill ants, mosquitoes, spiders, and other pests, but the poisons can also be dangerous to people, warn the editors of Changing Times. Note these points on how to buy and use them:

Don't buy in a hurry--different pesticides are for different pests. The label will tell you whether the contents will banish the bug you are after.

Check the type. Surface sprays are for crawling insects. They may be dangerous if used in the air against flying insects. If you want to attack flying insects such as mosquitoes or gnats, use a space spray.

Read directions carefully. Close doors and windows and order everyone out. Put out the cat, dog, and other pets before spraying.

Don't use near food or dishes. Don't spray the inside of the refrigerator or the oven. Take everything out of the pantry or dish cabinets before spraying the shelves, then wait until the spray dries before refilling with clean paper.

Protect yourself. Some sprays are flammable so don't smoke and don't use near pilot lights. If the pesticide spills on your skin, rinse it off immediately with plenty of soap and water. And don't inhale the spray.

Store spray safely. Keep it away from children. Don't store it with cleaning supplies or medicines. And look for any special directions on storage. If the product is flammable, for instance, don't store it near heat.

If someone swallows the pesticide, check the label for an antidote and call your doctor or rescue squad immediately. Bring the container with you if you take the victim to a doctor or hospital.

Be careful of empty containers. An empty pesticide container can be dangerous. Wrap the container in newspaper and put it in the trash can. Don't burn it. The can may be pressurized and explode.

Memorial Highway to be dedicated in September. During the 42nd Infantry Division's 25th annual reunion in Portland, September 8-10, part of the program will be the dedication of U. S. Route 2 which runs from Gilead to Houlton, in Maine, as the 42nd Division Memorial Highway. The 42d was in federal service from Feb. 24, 1941 to late 1945 and served on foreign soil from the Solomon Islands to the Japanese mainland. Several local men served in the 42d but it is believed that George Brown of Skillingston is the only one living in Bethel now who was in the division when it was mobilized. George was in Co. C of the 103d Infantry and was "rotated" stateside early 1945 from the Philippine Islands.

The above picture is Route 2 and the "Memorial Highway" sign in Gilead about one-half mile from the Maine-New Hampshire line.

DIRECTORS NAME MATH
TEACHER AT WOODSTOCK
HIGH SCHOOL

Directors of SD 44 met at An-
dover on Tuesday evening, July 5.
They elected John P. Conant of
Woodstock to teach general math
at Woodstock High School. He is
a graduate of Harvard College.

The report of the financial com-
mittee approved by the directors
into a balance of \$227,247.50, and
expenditures of \$228,252.47 as of
June 30.

Several policies on which the
directors have been working for
several weeks were presented for
final approval.

The following policy on re-
placement of non-teaching person-
nel was finished: "That such
non-teaching employees of SD 44
be retired as of his 65th birth-
day. An exception may be made
by the board of directors on re-
commendation of the superintendent.
An exception may be made on a
year-to-year basis to age 70, except for bus drivers."

Policies on bus lunch personnel
duties and pay schedules were
adopted with increments for this
year allowed full-time personnel.
The positions to be filled will be
as follows:

and more will be forthcoming as
the state is informed of the re-
commendations.

The women were eager to meet
their counterparts and discuss in-
formation on the state of the
most significant thing was the
importance of having a
state a privilege which the re-
sidents of Washington, D. C. are
deprived.

The Thursday afternoon Mrs.
Conant, Conant and Mrs. Alton
and Mrs. Barbara Conant have
organized a tour of the state

GOSS-CHAPMAN

Miss Betsy Chapman of Bethel became the bride of Paul Francis Goss of Dover-Foxcroft, Saturday afternoon, July 9, in a ceremony at the Congregational church. The bride is the daughter of Mr. and Mrs. W. C. Chapman of Broad Street. The bridegroom is the son of the late Mr. and Mrs. Richard D. Goss of Charles-ton.

The bride's gown was floor length veiled organza and re-embroidered lace with a veil of silk illusion falling from her crown of lace and organza. She carried a colonial bouquet of white miniature carnations.

Mrs. Rodman Barlow of Nahant, Mass., served her sister as matron of honor. Her gown was aqua georgette and taffeta. Her face veil was held by a headpiece of hair and crystals. Her flowers were yellow carnations.

The bridesmaids were Miss Carolyn Chapman of Bethel, Miss Sandra Hunter of Westwood, Mass., and Miss Judith Baker of Shirley Mills. Their white gowns were identical to those of the matron of honor. They carried yellow carnations.

The best man was Gerald Goss of Millinocket. The ushers were Richard Goss of Meriden, Conn., Clifford Harvey of Dover-Foxcroft, W. Leigh Smith of Waterville and James Steenstra of Dover-Foxcroft.

A reception was held in the church vestry.

Mrs. Goss is a graduate of Gould Academy and the University of Maine. She is a former teacher at Foxcroft Academy.

Mr. Goss is an instructor at the Eastern Maine Vocational Technical Institute in Bangor. He is a graduate of Higgins Classical Institute, Huxton College and holds a masters degree from Springfield, (Mass.) College.

Mr. and Mrs. Goss are on a wedding trip to Canada. They will reside in Bangor.

CONGRESSIONAL CANDIDATE ANNOUNCES ALTERNATIVE TO "POVERTY" PROGRAM

Howard M. Foley, Republican candidate for Congress from Maine's Second District has announced his support for the "Opportunity Crusade Act of 1966" as a substitute for President Johnson's "War on Poverty".

This Republican alternative to the Poverty Program is designed to correct most of the abuses of the Administration's program, put the program on a sound administrative basis, take it out of the realm of partisan politics, and get the greatest value for each tax dollar spent.

The candidate went on, "The stated aims of this program — helping the poorer citizens of our land regain their economic independence and self-respect — are worthy of our support. Unfortunately, however, in too many cases the poor have not benefited and have not benefited from the Poverty Program."

"Most of the corruption and abuses," Foley continued, "in the Poverty Program have resulted from the fact that the entire program is operated by Sargent Shriver's Office of Economic Opportunity, and is free from the restrictions of Civil Service and the other safeguards which apply to other federal employees. The Opportunity Crusade Act would remove all programs from this office except the Community Action phase and VISTA. The Farm-Home Administration loan program would be administered by experts in agriculture; small business loans would be handled by the already existing Small Business Administration. Educational program would be handled by the U.S. Office of Education.

All training programs would be coordinated by the Manpower Development and Training Act."

"The Job Corps, which up to now has been largely riddled by corruption and scandals, would be completely reorganized. The fantastically high-salaried jobs would be replaced with more realistically paying positions, which would be filled on a competitive basis."

"The Neighborhood Youth Corps," Foley continued, "would be replaced by an Industrial Youth Corps. This program would train the unskilled by putting them to work in industries where their skills are needed. Private employers would be reimbursed for the cost of training these youngsters. The Head Start program, which has been remarkably successful, would be enlarged considerably so that all economically deprived children between three and seven could participate."

"All in all," Foley continued, "this program represents a common sense solution to the Poverty War mess. It would do much more to help the poor than is presently being done, and would cost the taxpayers \$200 million a year less. I enthusiastically support this bill, and encourage all members of the 89th Congress, including my opponent, to make known their views on this bill."

Mr. and Mrs. William Huttly and three daughters of Woodstock, N.Y., spent last week with Mr. and Mrs. Norman Dock and family. Mrs. Hannah Dock returned to her home in Woodstock with them Sunday.

Mrs. Nelson Durgin and Michael have been visiting with Mr. and Mrs. Albert Grover and Mr. and Mrs. Roy Barker for the past two weeks. Mrs. Marjorie Barker returned to Belfast Sunday with Mrs. Durgin for a week.

TO FORM LOCAL AUTO CLUB

Presently, in the Bethel area, a project is under way to form a Bethel Auto Club. Steps have been taken to organize such a club, but only after the project has been made aware of its goals can it possibly succeed.

As is well known, highway accidents in Maine took a record toll of lives last year; the statistics this year show no improvement. Deputy Howe has recently completed a Driver Improvement Course in Augusta conducted by the National Safety Council and the National Highway Traffic Safety Committee. This summer he is holding classes throughout Oxford County in an effort to bring down on highway deaths and accidents.

The Bethel Auto Club, once underway, will contribute whatever it can to help in this effort with a highway safety campaign and penalties for members arrested for traffic violations are in the club's constitution.

Sheriff Horton reminded us of the teenage drinking problem by stating that "it is my opinion that 9 out of 10 youngsters who get into trouble do so as a result of consuming alcoholic beverages of one kind or another." (CITIZEN, May 5, 1966, p. 4.) We are all too aware of this problem in our area; we are aware of its possible consequences on the streets. Any member of the Bethel Auto Club who violates a law pertaining to alcohol is automatically expelled from the organization for one year, forfeiting his dues as well as all club privileges membership brings.

Deputy Howe has agreed to the Club's adult supervisor, of the members have agreed to their best to help to keep our streets safe. Those in the club, that motorist belongs on a supervised track or strip.

It is hoped that the public will support this project, and agree with questions concerning the club and its aims may receive information by addressing correspondence to the Bethel Auto Club, c/o the Bethel Citizen, Bethel, Maine.
